## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-10, 13-17, 19-22, 24-29 and 40-45, drawn to a modification method, a modification apparatus and molded resin article.

Group II, claim(s) 1, 3-10, 13-17, 19-22, 24-25, and 30-32, drawn to a modification method, a modification apparatus and lens.

Group III, claim(s) 1, 3-10, 13-17, 19-22, 24-25, and 34-35, drawn to a modification method, a modification apparatus and a film.

Group IV, claim(s) 1, 3-10, 13-17, 19-22, 24-25, and 36-37, drawn to a modification method, a modification apparatus and a fiber.

Group V, claim(s) 1, 3-10, 13-17, 19-22, 24-25, and 38-39, drawn to a modification method, a modification apparatus and an optical fiber.

Group VI, claim(s) 2, 11-12, 18, and 23, drawn to a modification method having a first closed space and a second closed space and a modification apparatus.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: there is no unity of invention between I and VI because I lacks the special technical feature of VI which includes a first closed space and a second closed space. There is no unity of invention in Groups I-V because the products of each category of invention (e.g. molded article, film, lens, fiber and optical fiber) are unrelated and have not special technical relationship.

3. If Group I is elected:

Art Unit: 1774

4. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Claims 40-41 – molded article with dyestuff;

Claim 42 - molded article with organic metal compound;

Claim 43 – molded article with antibacterial or antifungal agent;

Claim 44 – molded article with medicinal activity organic compound; and

Claim 45 – molded article with organic compound with physiological activity.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1774

5. The claims are deemed to correspond to the species listed above in the following manner:

1. Claims 1 and 40-41.
2. Claims 1 and 42.
3. Claims 1 and 43.
4. Claims 1 and 44.
5. Claims 1 and 45.

The following claim(s) are generic: none.

6. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species are not art recognized equivalents.

7. A telephone call was not made to applicants' representative to request an oral election to the above restriction requirement due to the complexity of the requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
